Knowledge-based Company

**Innovation in Technology**  
**Smart in Business**

Greenweb, a knowledge-based company, is one of the largest providers of the digital transformation solutions and digital economy in Iran. With over three decades of experience in the IT industry, we have been able to support our customers by investing in the development of emerging technologies such as artificial intelligence (AI), the Internet of Things (IoT), blockchain, cloud services, and web hosting. We are also proud to be a technology export agent and supporter of knowledge-based companies, helping them enter international markets.

**We** employ the state-of-the-art technologies the shape the future of our clients.
